

Merchants' Choice Payment Solutions (MCPS) introduces **Zoomgate Payment Gateway**

Merchants' Choice Payment Solutions is proud to announce **Zoomgate Payment Gateway**, your secure online payment gateway access for credit card processing.

Zoomgate is an internet-based, real time credit card payment application that enables merchants to process and manage Retail, MO/TO and eCommerce transactions quickly and easily. Zoomgate lets merchants do away with costly hardware-based POS terminals. With Zoomgate, any operator with an internet connection can have access to the most powerful, flexible and cost-effective payment application available, no software installation required!

No set up fee
No per transaction fee
\$10/month

For Merchants

Zoomgate delivers a complete line of solutions designed to help organizations automate and manage their payment acceptance and disbursement needs.

- eCommerce
- Recurring Billing / Subscription Billing
- Mail-Order / Telephone-Order
- Retail / Point-of-Sale
- Mobile Commerce

For Developers

Our Developer Kit allows for you to design your own customizable interfaces, making Zoomgate the ideal solution for adding payments capabilities to any application. Sign up to become a developer and you'll receive:

- Access to our Payment APIs
- Sample code for integrating our platform
- 24/7 Access to our Test Site
- PCI DSS / PA-DSS Compliance Programs
- Developer documentation access

fast. simple. secure.
